Stormwater Pollution Prevention

Ordinance: Common Illicit Discharges

- No person shall introduce the following into the Municipal Separate Storm Sewer System (MS4): any type of hazardous waste generated in and around a household including, but not limited to batteries, used paints, solvents, used pesticide, and used toiletries.
- Gasoline, naphtha, fuel oil, mineral oil or other flammable or explosive liquid, solid or gas;
- Any noxious, malodorous, poisonous, or reactive substance which, either singularly or by interaction with other substances, or by its accumulation in the MS4 becomes injurious or potentially injurious to human, plant or animal life, or property; or
- Any domestic wastewater or industrial wastewater.
- Gasoline, motor oil, used oil filters, wax, grease, antifreeze or any other motor vehicle fluids
- No person shall use, dispose of, discard, store, or transport an insecticide, herbicide, or fertilizer, in a manner inconsistent with the proper usage, storage, transport and disposal set out in the labeling in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), such that a harmful quantity of the pesticide, herbicide, or fertilizer may enter the MS4
- Any runoff or wash down water from any animal pen, kennel, or fowl or livestock containment area;
- Any swimming pool water or filter backwash from a swimming pool or fountain, discharge from a water line if it has been disinfected by super-chlorination, any other chemical has been used in line disinfection, or other means and the total residual chlorine exceeds the Surface Water Quality Standard of the State of Texas .
